### INSURANCE

This is quite a feature of my business. I represent two strong and liberal companies, whose contracts are free from the usual numerous restrictions that some other companies have, which really have the effect of insuring the company instead of the insured. No trouble to explain the policies and quote rates. ACCIDENT TICKETS—These are adapted to persons who do not desire yearly insurance, but who wish protection on short trips, etc. I issue them without written application, taking effect immediately.

## BATTLE IN STREETS.

Whites and Blacks Come Together  
at New York.

### RESULT OF AN ARREST

For More Than Half an Hour Cars  
Were Stopped and Conductors  
and Motormen Took Refuge  
Under Seats.

New York, July 15.—"San Juan Hill," the district bounded by Amsterdam and West End avenue and Sixty-first and Sixty-third streets, so-called because of its notoriety as a battle ground, was the scene Friday of a furious race riot, which required 250 policemen to quell after many shots had been fired and several persons had been seriously injured.

The trouble began shortly after 9 o'clock, when a policeman arrested Edward Connelly for attacking Gentry Williams, a negro, and was pursued to the stationhouse with his prisoner by a mob of Connelly's friends, hurling showers of stones and other missiles. When the stationhouse reserves turned out the whole neighborhood was in an uproar and blacks and whites engaged in desperate struggles in the streets. Torrents of missiles were hurled from roofs and windows. Within ten minutes not less than a thousand men, boys and women, black and white, were engaged in furious combat. The small party of police were powerless and reinforcements were summoned. On their arrival a cordon was drawn around the whole district and strong patrols made repeated charges down the streets in a vain effort to restore order. They succeeded in making a few prisoners and were forced to retreat, fighting every inch of the way and pursued to the stationhouse by a howling mob.

The worst fighting was in Sixty-second street, where from every roof rained missiles, while hundreds of shots were fired.

Inspector McLaughlin arrived shortly before 9 o'clock and realizing how widespread the danger was, sent hurry calls for reserves from as far North as 125th street and as far south as Leonard street from the east side and from the west side. In all there were more than 250 men under command of the inspector within twenty minutes.

Squads of men were out along roofs of the houses in Sixty-second street, where the fighting seemed heaviest. They walked from West End avenue to Amsterdam, clearing the roofs and found that many chimneys had been torn to pieces to furnish ammunition to the rioters and in the corners of roofs were mounds of bricks, pottery and bottles. More arrests were made and several whites and negroes were rescued from gangs of assailants, but desultory combats continued.

Inspector McLaughlin and Captain Gallagher, while passing through, rescued Michael Jacoby, a white man who was being beaten by two negroes armed with rocks. The negroes escaped.

The rioting spread down to Fifty-seventh street and up to Sixty-eighth street, although the largest battles were fought between Sixty-first and Sixty-third streets. For more than half an hour cars on the Amsterdam avenue line were blocked. Colored men pursued by whites took refuge on cars as they passed and were followed by showers of bricks and sticks. Windows in many cars were broken and passengers took shelter in neighboring houses. Conductors and motormen hid under seats, leaving their cars to the mercy of the mob. Several passengers were slightly hurt by stones and broken glasses.

Commissioner McAdoo arrived at 11 o'clock and made a tour of the battlefield, the fighting by that time having ceased. He said the riot could not have taken place had not the rougher element been permitted to carry arms. They appeared to have a regular arsenal of weapons as the police found when they searched the prisoners.

In all seven whites and two negroes had their injuries attended to by the ambulance surgeons, but scores of others who were seriously hurt were taken to their homes by friends. Several whites and six negroes, among whom almost all bore the brunt of conflict with the police, were arrested.

A picked body of thirty policemen was detailed to remain in the disturbed region during the night and assist officers of the precinct.

## JEALOUS OF A WIDOW

Minnesota Miss Charged With Putting Poison In

### AN ORANGE AND WELL

Young Woman Is Accused of Being Imbued With the Idea That a School Teacher in Community Was Her Rival.

Owatonna, Minn., July 15.—Wilda Johnson, a young woman, is under arrest charged with having put poison in a well on the farm of John L. Johnson and with having sent an orange containing strychnine to Mrs. Lundstrum, daughter of Johnson, who is teaching in a county school. Her preliminary hearing has been set for Aug. 11. According to the prosecution, Miss Johnson was desperately in love with a young man of the neighborhood. She is said to have become jealous of Mrs. Lundstrum, who is a young widow, and, with the idea of getting her out of the way, it is charged she sent a poisoned orange to the school with a note, saying it was "for the teacher only." The orange was laid aside, and having failed in this direction, the girl is alleged to have poisoned the Johnson well. Fortunately no one drank the water, and the alleged crime was discovered before any disastrous results ensued. The orange was sent to the state chemist and was declared to contain enough strychnine to kill a score of people.

### HAD MISHAP.

Accident to Pennsylvania Flyer Was Not a Serious One.

Harrisburg, Pa., July 15.—Train No. 28 on the Pennsylvania railroad known as "Pennsylvania Flyer," the new eighteen-hour train between Chicago and New York, met with an accident Saturday, which, fortunately, did not result seriously. A westbound freight train nearing Port Royal tried to stop suddenly and the engineer made too violent an application of air, in consequence of which a car was thrown over on track No. 1, on which the flyer was speeding east. An attempt was made to flag trains in front and in the rear of the wreck, but the break occurred almost simultaneously with the arrival of the flyer and the train plunged into the wreck. The momentum threw the wrecked car from the track, but the flyer did not jump the rails. Engineer Calvin Miller of this city, when he saw the obstruction on the track, jumped from his engine and was hurt about the head and back. He was the only one injured on the train. Fireman Garman brought the train to a stop. The passengers, all of whom were in their berths, did not know there had been an accident until after the train had been stopped for some time. They were not even shaken up and none of them injured. A wrecking crew soon cleared track and Fireman Garman brought the train to Harrisburg. Beyond the damage to the engine, which was slight, and smashing of the platform of the combined baggage and smoking car, the train was not damaged. It arrived here at 8:28 and left at 8:33, two hours and forty minutes late.

### HAY FEVER ABOLISHED.

Medical Science Discovers a Cure for this Malady by Breathing Hyomei.

Among the important additions made to medical science in recent years, none is more notable than the positive announcement of a cure for hay fever. Exhaustive experiments with Hyomei prove that this treatment will prevent the attacks of hay fever if used for two or three weeks before the annual appearance of the disease, and it may be relied upon, if used faithfully after the sneezing and other annoying symptoms have appeared, to relieve at once and afford a permanent cure. Stomach dosing cannot cure hay fever. A change of climate is the only treatment that gives any relief, and Hyomei, which medicates the air you breathe, acts upon this principle, giving in your own home a climate as healthy as that of the White Mountains or any other health resorts.

The complete Hyomei outfit costs but \$1, extra bottles 50 cents. E. J. Jenkins has seen the good effects following the use of Hyomei in so many cases of hay fever that he is willing to sell the treatment with the understanding that if it does not give satisfaction, the money will be refunded to you.

## THE MORNING EAGLE

Entered at the Postoffice as second class mail matter.

BY CONNELLY & CARNES.

Per Week, 15c - Per Month, 40c

SUNDAY MORNING, JULY 16.

### THE H. & T. C. CUT-OFF LINE.

The Navasota Review of July 13, commenting on the proposed H. & T. C. cut-off, says:

"A gentleman in the employ of the Southern Pacific is quoted as saying to one of our townsmen the other day that 'we are nearly ready now to come to your people with a proposition.' It is known that right-of-way agents have been at work west of the H. & T. C. en route toward Navasota. If this route is selected a proposition to our people may be expected. If the Central's tracks are to be utilized then of course no proposition will be necessary.

"Yesterday we published the fact of the Colorado Southern having bought terminal grounds at Dallas and that two routes southward were contemplated—one from Mexia and the other from Forth Worth. Today we receive information from Anderson to the effect that the Colorado and Southern engineers are at work surveying between Iola and Singleton. Has this anything to do with the much talked of T. & B. V., or is it still a new proposition?

"Indications at present are particularly bright for a series of new roads to come our way. It is simply a case of wait and see; the knowing ones are doing no talking."

The latest information we have on the local option election to be held Tuesday is that the executive committees and a number of leading citizens of the opposing factions have met and agreed that we shall have a quiet, law-abiding, legal contest, and that no intimidation of any kind will be offered any legal voter. This is as it should be. Robertson county's citizenship usually do the right thing, when properly approached, and to settle this question amicably next Tuesday will add much to the general welfare of the commonwealth.—Calvert Chronicle.

## SOCIAL and Club Matters

The home of Mrs. J. B. Sanders was the scene of a delightful tea Friday afternoon, given for the benefit of the Baptist church. The event was most pleasant socially and successful financially.

A number of the ladies of Methodist church gave a watermelon party on the lawn in front of the Methodist church on Thursday evening. Tables were arranged under a string of Chinese lanterns and upon them the "fruit of the vine" was served to the guests.

Misses Gene Dennis and Sadie Batte entertained a number of their young friends on Wednesday evening at the home of Mrs. Louis Batte with games and music. A flower contest closed with Miss Irene Board winner of the girl's prize and Pinckney Ford, the boy's. Cake and cream were served to the guests.

Mrs. R. L. Bennett of College Station entertained with a informal dance on Wednesday evening complimentary to Miss Panoast of San Antonio, guest of Mrs. Helen Bittle. Misses Lucy Board, Elma Harbers and Virginia Watkins were in attendance from Bryan. Ices and cake during intermission contributed to the comfort and enjoyment of the guests.

Miss Ella Ray Boyle entertained the Needle Workers on Friday afternoon at the home of her parents. "Blind 42" engaged the attention of these industrious maidens after the needle work was laid aside. A novelty was introduced in score cards and prizes, the former being pink and white stockings, favoring the club colors. The young lady showing the greatest number of holes in the stocking, was presented with the bobby prize, a spool of darning cotton. The prize, a pair of stockings, went to the member who succeeded in escaping the puncher. At the conclusion of the game ice cream and cake were served. The hostess was assisted in entertaining by Miss Irene Keeling and Miss Nonie Adams.

The younger set to the number of 20 odd couples with Mr. and Mrs. T. K. Lawrence as chaperones, enjoyed an informal dance at the K. M. Q. club room on Thursday evening. Those present were: Misses Keeling, Arrie and Alma Cole, Louise Harris, Garth, Cora Garth, McConico, Mae Hobgood, Horatzky, Simon of Houston, Lucy Board, Harbers, Watkins, Robinson, Hudson, Nell, Nonie and Alberta Adams, Aline Sanders, Malcolm McInnis, Irma Harris, Bittle; Mr. and Mrs. T. K. Lawrence; Messrs.

## Indigestion Causes Catarrh of the Stomach.

For many years it has been supposed that Catarrh of the Stomach caused indigestion and dyspepsia, but the truth is exactly the opposite. Indigestion causes catarrh. Repeated attacks of indigestion inflame the mucous membranes lining the stomach and exposes the nerves of the stomach, thus causing the glands to secrete mucin instead of the juices of natural digestion. This is called Catarrh of the Stomach.

## Kodol Dyspepsia Cure

relieves all inflammation of the mucous membranes lining the stomach, protects the nerves, and cures bad breath, sour risings, a sense of fullness after eating, indigestion, dyspepsia and all stomach troubles.
